**Subject:** Brentwood local Plan consultation

Dear Sir/Madam,

My husband and I went along to Brentwood Council offices last night, and were interested in all your proposed building sites. It seemed to both of us that even if only one or two were developed, an enormous strain would be put on services such as transport, already very congested, and hospitals and surgeries, schools, and homes for the care of the elderly. I do not know if these facilities will be increased to cope with the extra housing. We were told for instance that the N.H.S. would be responsible for hospital provision, and I cannot see any hope of another hospital being built. All in all we both felt that a complete new town would be the best answer. Is there any green belt land that could be released for this?

I was impressed by all the work that had gone into this presentation, I wish I knew enough to make a better comment. With every best wish for your task, Julia and Ray Blencowe.
