Comments (please use additional sheet if required):

- 1) This will lead to overdevelopment of the village of West Horndon by doubling (at least) the population.
- 2) The main focus of development in Brentwood seems to be concentrated in the West Horndon area. Despite the fact that other areas also have road and rail links to London, most of which are far better than those available in West Horndon.
- 3) The existing transport links in West Horndon will not support the proposed development. C2C at West Horndon is only a two track route to London and is already at capacity during rush hour times.
- 4) This proposed development will result in substantial loss of Green belt land around the West Horndon area.
- 5) Very low level of support for development at Danton in any shape or form, which is continued to be ignored by BB Council.
- 6) The A12 is already earmarked for upgrade to Motorway standard and there is plenty of Green belt land along this route. Why is there little or no development planned for this area?
- 7) In West Horndon we are bounded by two other boroughs i.e. Basildon and Thurrock and Havering is very near along the same road. (St Marys Lane). These boroughs could also put in development abutting West Horndon and this would be the end of West Horndon as anything like a village and would be a link development to London.
- 8) The infrastructure development would be substantial and is not guaranteed to happen.

Thank you for taking the time to respond. Please return forms to Planning Policy Team, Brentwood Borough Council, Town Hall, Brentwood, Essex CM15 8AY, or alternatively attach completed forms and email to planning.policy@brentwood.gov.uk
