

To Whom it may concern.

I agree wholeheartedly with all the objections raised to the proposed building between St Andrew's Place, Bishops Walk and Hogarth School. Including:- Narrow roads creating difficult access for emergency vehicles, lack of pavements and those in poor condition: overcrowding of schools and G.P. surgeries. Add to this parking!

Moreover I feel it totally foolhardy to build on Sports fields.

With doctors and indeed the government telling us that children and young people do not get enough outdoor exercise, resulting in overweight and diabetes, we should be using these irreplaceable green spaces more, not destroying them for ever!

yours sincerely
