Dear sir/Madame,I was sent a letter to ask my view on the local plan for planning, I'm really disappointed that no plan for building some affordable houses and bungalows in blackmore village is going to take place , I speak for many people who wish to move into blackmore village,as there are no council properties available as they have mostly been bought, I personally have lived in blackmore for 20 +years and my daughter has grown up here ,she is [REDACTED] unable to drive and also [REDACTED] [REDACTED], as I am her carer she needs to be close by for several reasons,she has been waiting for a transfer to blackmore for 10/12 years altogether,,there is there is red rose lane and fingrith, hall lane that seems to be really good land for a few houses, it's a crying shame that the village people of blackmore don't just put themselves in the place of people who wish to move into the village for special needs,I do like the view of the green /brown belt,but surely there is a need for some houses ,kind regards k Davies .
