CEG supports the requirements of policy 10.8 for new development proposals to provide functional on-site open space and/or recreational amenities or where appropriate, financial contributions towards new or improved facilities nearby.

A key principle of healthy living is the provision of appropriate open space within easy access of new development. The unique holistic design opportunities available at Dunton Hills provide opportunities to deliver, design and locate such facilities so as to create the greatest possible encouragement for their use by new residents of the community.
