CEG supports the aim of policy 10.10 to adopt an integrated approach towards the provision of Green Infrastructure which enhances the Borough's network of multi-functional green space.

The allocation of a new village scale of development and particularly on the Dunton Hills site affords a unique opportunity to enhance, improve and extend the provision of Green infrastructure. Early evidence prepared on behalf of the Promoters identifies extensive opportunities to use the existing natural topography and landscape features as an integral part of the village design and then to improve and extend them into the site and beyond.
