I

- object to
- support
- have mixed feelings about

the Council's draft Local Plan.

The Council proposes to locate over one third of its new housing over the next 20 years on the edge of their borough next to Basildon, with the effect that the burden (in terms of pressure on roads etc.) will fall on the Borough of Basildon. How satisfied are you that this decision was taken for the right reasons? ?

The Council proposes to locate over one third of its entire housing at one site, at Dunton. How satisfied are you that the Council is spreading its housing need fairly across its borough?

Added to the development planned by Basildon Council, the housing and industrial developments proposed by the Council would create an almost unbroken strip of development in the Green Belt along the A127, effectively joining Basildon to Upminster. How satisfied are you that the Council is protecting the Green Belt and observing its aims?

In its draft Plan the Council states that it wants to protect the Green Belt around its villages. Dunton Hills Garden Village, combined with the development planned by Basildon Council, would remove all the Green Belt land around Dunton Wayletts. How satisfied are you that the Council has taken care to protect the village of Dunton Wayletts?

The new homes will add about 3,500 cars to the area, and the new industrial premises will add many commercial vehicles. This will be on top of the traffic generated by Basildon's Plan. Roads such as the A127 already suffer regular congestion. How satisfied are you that the local road network can and will be improved sufficiently to handle the increased traffic?

The new homes will increase the local population by about 6,250. This will be on top of the increase generated by Basildon's Plan. The local railway service is currently overloaded at peak times. How satisfied are you that the capacity of the rail link can and will be increased sufficiently to accommodate the growth in passengers numbers?

Both Basildon Hospital and Southend Hospital are in financial difficulty and on Black Alert. How confident are you that the capacity of the local medical service can and will be increased sufficiently to cope with the additional residents?

Dunton Wayletts is an important historic village on Brentwood Council's doorstep, though just inside Basildon Council's boundary. How satisfied are you that Brentwood Council have considered the impact that its plans would have on the village? ?

Dunton lies in an area with extremely high levels of air pollution and in the vicinity of a Major Accident Hazard Pipeline. Are you satisfied that the Council has given sufficient thought to the risks associated with locating a large housing development and schools in such an area?

The great majority of the village's inhabitants live on Dunton Park. How satisfied are you that the Council's plans take account of the particular circumstances of living in a mobile home?

Any other comments that I have on the Plan are written on the next page.

Other comments

I moved away from London to Essex 30 years ago for more space - elbow room - peace + quiet - do I have to move again to attain all the above reasons for moving here in the first place?

Please think about what you are proposing to do!
