Comments (please use additional sheet if required):

The current plan suggest that the required G&T site are developed and located adjacent to new residential developments as they are constructed.

My understanding from the results previous consultations is that G&T communities prefer sites to be away from business and residential areas. Indeed, one G&T site situated just north of the A127/A128 junction has to my knowledge not been used in over 30 years. I understand this is because it is too close to other developments.

This aspect of the site plan allocation needs a total rethink.
