The road infrastructure within and around Brentwood is unable to cope with the current population of the town - how is it going to cope with the extra number of residents this plan would produce? I can't find any reference as to how you plan to cope with the resultant extra traffic. The town will come to a stand still and will become gridlocked. Also, if you build on our car parks where are we going to park? A lack of parking will kill our High Street. Extra traffic will increase pollution and harm Brentwood residents, particularly the young & elderly. Brentwood will become overcrowded, which will ruin the pleasures of living here. This plan does little to attract me to continue to live in Brentwood.
