Dear Sir,

Re: Local Development Plan

I am much disturbed by the proposal to build so many new homes, on many vulnerable sites. Quite apart from the usual caveat of traffic, air pollution, open spaces and wildlife, there are so many other things to be considered. For example, more houses mean more traffic, which means more wear and tear on our roads, which are already in a parlous state. Then there is the question of utilities, and schooling. Finally, where will all the doctors be to care for so many extra patients? It sometimes takes weeks to get to see a G.P. as it is, I am quite sure that local A and E departments will not be wanting extra attendances!

I urge the Council to re-think this all very carefully. There must be a better, more beneficial way to deal with this.

Yours faithfully
