

Brentwood Local Plan Consultation.

Carol P

Dear sir/Madam,

Having read the consultation documents, regarding preferred sites and allocations for the new local plans in our Borough. In the main it seem quite good and we know more homes have to be built.

However I do have concerns on the shortage of Dr surgeries and parking in Brentwood. Considering we have a cottage hospital why is there no walk in clinic attached to it. Harold Wood has a walk in clinic which is open from 8 am to 8 pm 7 days a week and deals with much more than GP surgeries can. It takes a lot of stress from the GPs and main Hospitals.

Will any of the new build houses/flats be real affordable housing as many of the new build appartments are expensive and classed as luxury.

Also we have been told (after 3 Consultation papers) that we would have another Superstore, and a Cinema in Brentwood. will that still happen. To my knowledge this debate has been going on for at least 8 years. I think both are needed in the borough along with more retail shops. For to long most shops that become empty end up being turned into eating places it is now a joke . There are many elderly people in Brentwood that do not shop on line, so to get a choice of shops they have to go to Billericay, Romford or Lakeside, which I and many other think is unacceptable.

Regards
