### **How to complete the representation form:**

This form consists of two sections – Section A: Personal Information, and Section B: Your Representation. Please note that your representation cannot be accepted without completing information identified in Section A.

The Local Plan Pre-Submission (Regulation 19) consultation consists of more formal and technical questions focused on the four Tests of Soundness and whether the Local Plan is compliant with relevant legislation. Comments are to be focused on three core areas – is the Plan positively prepared (referred to as ‘soundness’), does the Council adhere to the Duty to Cooperate, and is the Plan legally compliant (addressed by question 3 of this comment form). These terms are defined below:

- a) **Soundness:** Local Planning Authorities must prepare a Local Plan based on relevant and appropriate evidence base. They are required to publish these documents on their website. The evidence used to develop the Brentwood Local Plan can be found on the Council’s website under Evidence Base.
- b) **Duty to Cooperate:** Throughout the plan-making process discussions have taken place with various statutory consultees and neighbouring authorities. A summary of these meetings can be found within the Duty to Cooperate Statement, published as part of the Regulation 19 consultation. This is a live document and will be updated prior to being submitted to the Secretary of

State.

- c) **Legally Compliant:** Local Planning Authorities must prepare a Local Plan which adheres to the requirements as set out in the National Planning Policy Framework (NPPF), planning practice guidance, and other relevant planning regulations & legislation.

Question 4 of this comment form asks for further information on your opinion of the Plans 'soundness'. According to the National Planning Policy Framework (NPPF) para 35, Local Plans are examined to assess whether they have been prepared in accordance with legal and procedural requirements and whether they are sound. Plans are 'sound' if they are:

- a) **Positively prepared** – providing a strategy which as a minimum seeks to meet the area's objectively assessed needs, and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and consistent with achieving sustainable development
- b) **Justified** – an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence;
- c) **Effective** – deliverable over the plan period, and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground; and
- d) **Consistent with national policy** – enabling the delivery of sustainable development in accordance with the policies in the NPPF.

Please keep in mind the information provided above to assist with correctly completing your comment form. Question 5: Please provide details of either:

- Why you consider the Plan to be sound, legally compliant, or adheres to the Duty to Cooperate; or
- Why you consider that the Local Plan is unsound, is not legally compliant, or fails to comply with the Duty to Cooperate

The overall approach of the Brentwood Local Plan remains the same as the previous consultations of the draft 2016 plan and 2018 Preferred Site Allocations consultation with Brentwood Council proposing to accommodate all of the identified objectively assessed need for housing and employment within the Borough Boundary during the plan period. However the period of the plan now covers 2016-2033. The Local Plan includes a revised housing requirement of 7,752 dwellings (up from 7,240 dwellings in the 2016 Local Plan consultation and up from 7600 dwellings in the 2018 consultation) and a provision of approximately 47.4ha of net employment land.

Brentwood Council intends to plan for housing numbers and land supply above its assessment of identified Objectively Assessed Housing Need of 350 dwellings per annum to allow some degree of flexibility and to make a contingency for future housing requirements. Furthermore it is noted that Brentwood Council considers that there is potential to accommodate the housing numbers proposed by the Government standardised methodology with further capacity at Dunton Hills Garden Village.

Thurrock Council seeks further clarification as to whether level of growth proposed for Brentwood could be accommodated in the plan in light of the concerns with regard to the assessment of housing need being required to be altered to meet Government policy at 452 dpa and due to the current concerns regarding the proposed strategic location at Dunton Hills Garden Village to accommodate this growth. Thurrock Council would wish to further engage with Brentwood Council to discuss other alternative options in the borough including at West Horndon.

The Pre-Submission Brentwood Local Plan (Regulation 19) fails to take into account the latest Government approach (as published in February 2019) to housing need assessment and use of the appropriate household and demographic data and is therefore considered unsound. The baseline housing target in the pre-submission plan of 350 dwellings per annum is now considered inappropriate and out of date. The upper end flexible target of 456 dwellings per annum is now just above the baseline requirement of 452pa as set out in the standard methodology approach.

Therefore the Brentwood Pre-Submission Local Plan (Regulation 19) in making an upper provision for up to 456 homes per annum just meets the OAN for housing in the plan period having regard to the current standard methodology. However the baseline housing target of 350 dwellings is now based upon a methodology that does not comply with Government Policy. This calls into question the soundness of the plan but

also means the plan no longer provides for a contingency above the OAN and no buffer requirement to meet any failure of the thresholds of the housing delivery test.

The Government's recently published Housing Delivery Test figure for Brentwood indicate that it is required to provide a 20% buffer. As the Housing requirement for Brentwood is now based upon the higher standard methodology figure of 452 dwellings per annum. It is unclear whether Brentwood is able to meet these figures for its five year supply as the Pre-submission plan housing trajectory was assuming 310 dwellings in the early period of the plan.

- It is considered that the Brentwood Local Plan will need to be re-assessed in light of the implications of the Government requirement to use the standard methodology with CLG 2014-based household projections.
- The plan will need to be revised make provision for a higher housing target and provision for additional housing sites to provide a contingency buffer.

It is considered that a number of the policies including SP02 should be amended to make reference to the circumstances and triggers in which the Brentwood Local Plan would need to be reviewed including failure to deliver the housing within the plan and /or a different spatial strategy or growth levels as a result of the policy approach following adoption of a South Essex Joint Strategic Plan.

Please continue on a separate sheet if necessary

Question 6: Please set out what modification(s) you consider necessary to make the Local Plan sound or legally compliant, having regard to the matters that you identified above.

You will need to say why this modification will make the Local Plan sound or legally compliant. Please be as accurate as possible.
