Question 1: Which **Main Modification and/or supporting document** does your representation relate to?

Each Main Modification within the Schedule has a reference number. This can be found in the first column i.e. MM1, MM2

Any representations on a supporting document should clearly state which paragraphs of the document it relates to and, as far as possible, your comments should be linked to specific Main Modifications. You should avoid lengthy comments on the supporting documents themselves.

Representations on the Policies Map must be linked to specific modifications in that they reflect a change required as a result of a Main Modification.

Question 3: If you consider the **Main Modification and/or supporting document** unsound, please indicate which of the soundness test(s) does it fail (please mark all that apply):

Question 4: Please provide details of either:

- Why you consider the **Main Modification and/or supporting document** to be sound or legally compliant; or
- Why you consider the **Main Modification and/or supporting document** to be unsound or is not legally compliant.

BBC are aware of local issue finally agreed to reduce the allocations on 225 & 226. They agreed the original inclusion should not have happened. For the Government Inspector to then increase the allocation up to 70 is ridiculous. To use general guidelines in NPPF is even more inexplicable when they have ignored other aspects of NPPF which have been used by other inspectors to rule out all development on ^{similar} sites on other plans.

Please continue on a separate sheet if necessary

Question 5: Please set out what change(s) you consider necessary to make the **Main Modification and/or supporting document** sound or legally compliant, having regard to the matters that you identified above.

You will need to say why this change will make the Submission Version of the Local Plan sound or legally compliant. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as accurate as possible.

This needs to be reviewed again + overturned. A full and proper investigation would show that any development on these Green Belt sites is unsustainable and unsound.
