Question 1: Which **Main Modification and/or supporting document** does your representation relate to?

Each Main Modification within the Schedule has a reference number. This can be found in the first column i.e. MM1, MM2

Any representations on a supporting document should clearly state which paragraphs of the document it relates to and, as far as possible, your comments should be linked to specific Main Modifications. You should avoid lengthy comments on the supporting documents themselves.

Representations on the Policies Map must be linked to specific modifications in that they reflect a change required as a result of a Main Modification.

MM78 FLOOD RISK

There is a massive flood risk in this area.

Whenever there is a downpour many surrounding areas are under water. It is getting worse. The climate change is not going to help the situation.

There is also poor local infrastructure. Schools, shops, parking etc.

Question 5: Please set out what change(s) you consider necessary to make the **Main Modification and/or supporting document** sound or legally compliant, having regard to the matters that you identified above.

You will need to say why this change will make the Submission Version of the Local Plan sound or legally compliant. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as accurate as possible.

A professional assessment should
undertaken by Environmental Agency.

Unless this is obtained
I would strongly suggest
no building be undertaken.
