

## Section B: Your Representation

Please complete a separate sheet for each representation that you wish to make. You must complete 'Part A – Personal Details' for your representation to be accepted.

Representations cannot be treated as confidential and will be published on our Consultation Portal. Any representations that are considered libelous, racist, abusive or offensive will not be accepted. All representations made will only be attributed to your name. We will not publish any contact details, signatures or other sensitive information.

Full Name	Nicole Corse
-----------	--------------

Question 1: Which **Main Modification and/or supporting document** does your representation relate to?

Each Main Modification within the Schedule has a reference number. This can be found in the first column i.e. MM1, MM2

Any representations on a supporting document should clearly state which paragraphs of the document it relates to and, as far as possible, your comments should be linked to specific Main Modifications. You should avoid lengthy comments on the supporting documents themselves.

Representations on the Policies Map must be linked to specific modifications in that they reflect a change required as a result of a Main Modification.

Schedule of Potential Main Modifications	MM no.	<input type="text" value="MM78"/>
Sustainability Appraisal	para(s)	<input type="text"/>
Habitat Regulations Assessment	para(s)	<input type="text"/>
Policies Map or other supporting documents	Please specify	<input type="text"/>

Question 2: Do you consider this **Main Modification and/or supporting document**:

Legally Compliant?

YES

NO

Sound?

YES

NO

Question 3: If you consider the **Main Modification and/or supporting document** unsound, please indicate which of the soundness test(s) does it fail (please mark all that apply):

Not positively prepared

Not justified

Not effective

Not consistent with national planning policy

Question 4: Please provide details of either:

- Why you consider the **Main Modification and/or supporting document** to be sound or legally compliant; or
- Why you consider the **Main Modification and/or supporting document** to be unsound or is not legally compliant.

Flooding has always been a major issue for Blackmore and the new development where we live has already taken extensive open field areas and covered them in material that does not absorb rain water. To remove even larger fields for the proposed developments would be very bad for those new properties and also the rest of the village. Blackmore is recognised as a "Critical Drainage Area" in the plan, but the Inspectors have removed the comment that the development may impact surface water flooding, and there is no evidence to support this change of direction. There is also no mention at all about Fluvial Flooding which has been completely ignored. With more extreme weather predicted this situation will only worsen.

Please continue on a separate sheet if necessary

Question 5: Please set out what change(s) you consider necessary to make the **Main Modification and/or supporting document** sound or legally compliant, having regard to the matters that you identified above.

You will need to say why this change will make the Submission Version of the Local Plan sound or legally compliant. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as accurate as possible.

Environment agency needs to be involved & their recommendations acted upon, as part of the creation of the initial plan. This is critical to have any hope of a sustainable development.

It would appear that the Inspectors are trying to paper over massive cracks and holes in the original plan

Please continue on a separate sheet if necessary
