Question 1: Which **Main Modification and/or supporting document** does your representation relate to?

Each Main Modification within the Schedule has a reference number. This can be found in the first column i.e. MM1, MM2

Any representations on a supporting document should clearly state which paragraphs of the document it relates to and, as far as possible, your comments should be linked to specific Main Modifications. You should avoid lengthy comments on the supporting documents themselves.

Representations on the Policies Map must be linked to specific modifications in that they reflect a change required as a result of a Main Modification.

The Developers have no reason to consider their impact on Blackmore Village - Once built they'll just take their money & run & the effects left behind to this Historic area won't be of their concern. We won't be able to use the facilities here as they will be evenly subscribed i.e. Roads, Doctors, School etc.

The problem with flooding in this area is REAL!!! and by taking away Green belt land there will be no where for the waters from the River Widd to soak away except into peoples properties.

Why are all these properties being considered to be built in Blackmore when No properties are being built in the Northern Villages ~~ie~~ ^{ie} Doddingtonst, Standen Massey etc.
