Question 1: Which **Main Modification and/or supporting document** does your representation relate to?

Each Main Modification within the Schedule has a reference number. This can be found in the first column i.e. MM1, MM2

Any representations on a supporting document should clearly state which paragraphs of the document it relates to and, as far as possible, your comments should be linked to specific Main Modifications. You should avoid lengthy comments on the supporting documents themselves.

Representations on the Policies Map must be linked to specific modifications in that they reflect a change required as a result of a Main Modification.

Schedule of Potential Main Modifications	MM no.	MM 1+2
Sustainability Appraisal	para(s)	
Habitat Regulations Assessment	para(s)	
Policies Map or other supporting documents	Please specify

Question 4: Please provide details of either:

- Why you consider the **Main Modification** and/or supporting document to be sound or legally compliant; or
- Why you consider the **Main Modification** and/or supporting document to be unsound or is not legally compliant.

The Strategic Objectives of Brentwood & Central government is to reduce unnecessary car journeys & make better use of public transport.

Blackmore has no public transport, no employment opportunities & no way for any residents to get to anywhere is by car. To site a large development of new house there completely goes against those laudable objects. Pollution from fossil fuel will rise dramatically & the already poor road network around the village will be wrecked by the major increase in journeys.

No assessment of the viability of the 2 sites was undertaken & this is a major oversight by the council (who at least now ~~are~~ are trying reduce the numbers) & reprehensible approach by the inspectors to increase the number without even checking any aspect.

Please continue on a separate sheet if necessary

Question 5: Please set out what change(s) you consider necessary to make the **Main Modification and/or supporting document** sound or legally compliant, having regard to the matters that you identified above.

You will need to say why this change will make the Submission Version of the Local Plan sound or legally compliant. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as accurate as possible.

There needs to be a full assessment on the viability and sustainability of the sites in the plan. Before proceeding any further to rectify errors that have been there from the start. It is unacceptable to say "Sorry it is too late to do anything now"
