Question 1: Which **Main Modification and/or supporting document** does your representation relate to?

Each Main Modification within the Schedule has a reference number. This can be found in the first column i.e. MM1, MM2

Any representations on a supporting document should clearly state which paragraphs of the document it relates to and, as far as possible, your comments should be linked to specific Main Modifications. You should avoid lengthy comments on the supporting documents themselves.

Representations on the Policies Map must be linked to specific modifications in that they reflect a change required as a result of a Main Modification.

Question 3: If you consider the **Main Modification and/or supporting document** unsound, please indicate which of the soundness test(s) does it fail (please mark all that apply):

Not positively prepared

Not justified

Not effective

Not consistent with national planning policy

Question 4: Please provide details of either:

- Why you consider the **Main Modification and/or supporting document** to be sound or legally compliant; or
- Why you consider the **Main Modification and/or supporting document** to be unsound or is not legally compliant.

We support the Main Modifications to policy R09 (Land off Warley Hill, Warley) set out under MM92. They clarify the policy expectations for the development of the site.

Within MM92, we note the stipulation at 3a of the policy, which requires “*off-site highways infrastructure improvements as may be reasonably required by National Highways and Essex County Council in accordance with policies MG05 and BE08 (the planning obligations will determine the level and timing of payments for these purposes)*”, and “*‘quietway’ cycle routes connecting transfer hubs to schools in Brentwood Town Centre.*” These appear to accord with the Infrastructure Delivery Plan Part B Update (document reference F70) which specifies the requirements and the allocations to which they relate, including the policy R09 site. In this respect we support any relevant planning obligations associated with the development of the site where they meet the tests set out in Regulation 122 of the Community Infrastructure Levy Regulations 2010, namely that they are:

- a) necessary to make the development acceptable in planning terms;
- b) directly related to the development; and
- c) fairly and reasonably related in scale and kind to the development.

We also note the Appendix 1 Housing Trajectory (MM114) which identifies a delivery timetable between years 2022/3 and 2023/4, which we agree with.

Additional references within the MM text to the need for “high quality design” and for development to sustain and enhance nearby Listed heritage assets are also noted.

Please continue on a separate sheet if necessary

Question 5: Please set out what change(s) you consider necessary to make the **Main Modification and/or supporting document** sound or legally compliant, having regard to the matters that you identified above.

You will need to say why this change will make the Submission Version of the Local Plan sound or legally compliant. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as accurate as possible.

We suggest no changes to the policy text associated with MM92.
