Question 1: Which **Main Modification and/or supporting document** does your representation relate to?

Each Main Modification within the Schedule has a reference number. This can be found in the first column i.e. MM1, MM2

Any representations on a supporting document should clearly state which paragraphs of the document it relates to and, as far as possible, your comments should be linked to specific Main Modifications. You should avoid lengthy comments on the supporting documents themselves.

Representations on the Policies Map must be linked to specific modifications in that they reflect a change required as a result of a Main Modification.

Blackmore is a small but sustainable village served by a network of rural roads. (no cycle lanes, no pavements outside the inner village area). No rail access and limited bus service. A development of this size (40 houses) has not been identified or meets local resident needs. It will generate additional vehicle movement, congestion and pollution. Making an access via Orchard Piece is totally inappropriate as this small estate already experiences parking and access problems. Any additional traffic will cause chaos and be a safety hazard. All this is opposite to the BBC own aims and contra to Government guidelines to reduce unnecessary travel.

Please continue on a separate sheet if necessary

Question 5: Please set out what change(s) you consider necessary to make the **Main Modification and/or supporting document** sound or legally compliant, having regard to the matters that you identified above.

You will need to say why this change will make the Submission Version of the Local Plan sound or legally compliant. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as accurate as possible.

IF Greenbelt land needs to be released to meet the housing commitments of the borough then they should be in more appropriate areas, where the development will improve sustainability ^{at the area} and have better access to services etc.

R25 + R26 should be removed from LDP as the continuation of its inclusion is unsound
