Question 1: Which **Main Modification and/or supporting document** does your representation relate to?

Each Main Modification within the Schedule has a reference number. This can be found in the first column i.e. MM1, MM2

Any representations on a supporting document should clearly state which paragraphs of the document it relates to and, as far as possible, your comments should be linked to specific Main Modifications. You should avoid lengthy comments on the supporting documents themselves.

Representations on the Policies Map must be linked to specific modifications in that they reflect a change required as a result of a Main Modification.

Question 4: Please provide details of either:

- Why you consider the **Main Modification and/or supporting document** to be sound or legally compliant; or
- Why you consider the **Main Modification and/or supporting document** to be unsound or is not legally compliant.

Blackmore is a remote village with poor road connections, & is distant from towns/railway stations, bus service is poor & not suitable for commuting. Car travel is essential to get anywhere if you reside in Blackmore, so more houses means more cars/pollution/congestion. Which is contrary to BBC strategic objectives & the government aims for reducing unnecessary journeys. We moved here to the new development and are totally reliant on our cars to access anything.

Proposing this many houses this far away from all central facilities makes no sense and it is totally negligent for BBC to remove more appropriate sites from the plan which have none of the issues of R25 & R26

Question 5: Please set out what change(s) you consider necessary to make the **Main Modification and/or supporting document** sound or legally compliant, having regard to the matters that you identified above.

You will need to say why this change will make the Submission Version of the Local Plan sound or legally compliant. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as accurate as possible.

The plan needs to be revised to eradicate this type of failure and contradiction of their own Strategic Objectives.
