For the attention of The Planning Policy Team

16th February 2015

Dear Sirs,

Re: Proposed Local plan Brentwood .

Please find attached your consultation questionnaire answered to the best of my ability.

My overriding concern is that you will change the environment which I live and enjoy, for the sake of economic or political gain. I feel that I live in a landscape-sensitive location which lack the facilities and infrastructure needed to support any further development and to do so would be betrayal of all residents.

When I first moved to this area in 1986 I happened upon a gentleman who lived in Doddinghurst, I asked what he valued about the area. He told me that although he worked in London as he drove home and into the green areas his spirit lifted and a sense of tranquillity calmed him. I'm not sure you can put a price on this.

There are still places within a short distance of my residence where I can: watch a barn owl hunt; observe fallow deer rut, or watch duck coming to feed. I would like to feel my grandchildren will have this opportunity.

Hopefully you may find my comments of some value.
