Question 3 addition

1. I understand a sustainability study was carried out 3 years ago which highlighted the lack of infrastructure within Doddinghurst and concluded there was not the capacity for expansion in the village. There have been no improvements to the infrastructure since then.
2. Affordable housing is supposed to be sited close to transport links and areas offering employment. Doddinghurst has neither. Whilst there is a bus service to Brentwood only 4 buses a day travel as far as the railway station and the last bus of the day leaves Brentwood at 18.35. Bus fares would also have a significant impact to anyone living on a low income.

As there are so few opportunities to work in Doddinghurst and the surrounding areas transport would be an absolute essential.
3. It therefore follows that the occupants of the proposed dwellings are likely to need at least one car, and as is the case of most families today, 2 cars. This would then have obvious ongoing effects on parking, road usage, traffic, etc.
4. The village schools are currently almost full and cannot be extended. They therefore could not accommodate a large influx of pupils.
5. The Doctor's surgery would be likewise seriously affected.
6. One of the proposed access routes to the dwellings is via Lime Grove.

Lime Grove is a narrow width road which already has problems with parking and through access. These problems would be greatly exacerbated were the road to become a through road to the new dwellings.

Q5: Should the A12 corridor accommodate growth by releasing sites on the edge of urban areas?

Yes No

Comments

?

Q6: In order to provide for local need is it preferable for Greenfield sites on the edge of villages to be released, or to develop brownfield sites (both within the Green Belt)?

Comments

No to using Greenbelt.
The locals don't need
more houses. use Braunbet
only

?

Q7: To enable future employment need to be met do you agree that the most sustainable approach is to allocate new sites close to the strategic highway network?

Yes No

Comments

We feel our village is
too far away + want benefit
employment

?

Q8: In order to ensure that the Town Centre remains economically sustainable, do you agree that a "Town Centre First" approach should be taken to retail development?

Yes No
