Q12: Have we considered the main infrastructure issues? Are there other important issues to consider? Yes No

Comments

Yes – The new infrastructure should be in place before the new developments occur. Local residences will be affected by the traffic on the A128, A127 and A12, as well as the strain on local buses and the already very heavily used c2c service. The highest priority needs to be given to supporting, growing and developing the significant new transport infrastructure that surround West Horndon. Without due care and attention to the planning of these the developments of new houses will strangle an already over populated system.

Q13: What do you think the priorities for infrastructure spending should be?

Comments

Please refer to above and...Where the highest levels of new developments occur particular detail and planning needs to take place. I would argue there is no priority but a priority for good planning and very good holistic infrastructure.
