|   | Comments   | 1           |
|   | Ingatestone Garden Centre (128) divides the Parishes of Mountnessing and Ingatestone and therefore should not be built upon. The current use of the Garden Centre is permitted Brownfield use on a Green Belt site, but if it is no longer required it should remain as Green Belt land.  Land to south of Fryerning Lane (153) is currently open, unspoilt land. Access to this site from Fryerning Lane would be problematic.  |             |

|      | Comments   |
|      | Releasing small sites ad-hoc does not require developers to contribute towards the infrastructure of the area, e.g. school places, healthcare provision, sewage, transport links etc.  |
|      |  |
|      | Q6: In order to provide for local need is it preferable for Greenfield sites on the edge of villages to be released, or to develop brownfield sites (both within the Green Belt)?  |
|      | Comments   |
|      | Brownfield sites preferably, but both could be considered to meet the housing need. Greenfield sites around Villages should only be released for housing if guarantees could be put in place whereby local residents and their families who have a strong connection to that area would take priority in benefiting from any new build. Strong emphasis should be placed on making the new builds affordable.  |

Yes □ No 🗹

#### **Comments**

There is a reasonably good provision of open space in the area where I live, with Seymour Field and Fairfield in Ingatestone, and Coronation Field in Mountnessing. I don't believe there are opportunities for more open space provision.
