Questions

The Council is seeking responses on key issues. Focused questions appear in bold boxes throughout the Strategic Growth Options document. These questions are summarised in this consultation questionnaire. More information can be found at www.brentwood.gov.uk/localplan.

Please use an additional sheet if necessary. Please note that all responses will be published online.

Q1: Do you agree with the broad areas, for the purpose of considering approaches to growth?

Yes No

Comments

I agree that the A127 corridor appears to offer a better opportunity for development than the A12 corridor, albeit that infrastructure would have to be improved to cope with the envisaged additional capacity.

Q2: Do you agree with the issues raised within each of these areas?

Yes No

Comments

Q3: Do you have any comments on the appropriateness of particular sites?

Yes No

Comments

The A12 corridor option is not feasible given existing capacity constraints and the adverse effects on valuable greenfield land.

Q4: Given the greater capacity for growth along the A127 corridor, which of the sites put forward do you think is the best location for growth?

Comments

East of West Horndon including Dunton Garden suburb.

Q5: Should the A12 corridor accommodate growth by releasing sites on the edge of urban areas?

Yes No

Comments

I am concerned that the planning document identifies land to the east of Brentwood as being to the west of it. A fundamental error in an important public document.

Q6: In order to provide for local need is it preferable for Greenfield sites on the edge of villages to be released, or to develop brownfield sites (both within the Green Belt)?

Comments

It is preferable to develop brownfield sites. I would add that the integrity of greenfield land should be honoured.

Q7: To enable future employment need to be met do you agree that the most sustainable approach is to allocate new sites close to the strategic highway network?

Yes No

Comments

Q8: In order to ensure that the Town Centre remains economically sustainable, do you agree that a "Town Centre First" approach should be taken to retail development?

Yes No

Comments

Q9: Are there opportunities for more open space provision in the area where you live?

Yes **No**

Comments

Q12: Have we considered the main infrastructure issues? Are there other important issues to consider?

Yes No

Comments

Q13: What do you think the priorities for infrastructure spending should be?
