Question 3:

Plot 143 Land east of Peartree Lane/Peartree Close.

Planning 50 houses with a play area is flawed. Most residents are elderly.

50 houses would have an enormous impact on the area.

We do not have transport links, these are quiet roads which would be totally destroyed.

There are only 5 places available in the village school.

The GP surgery already has 8,000 patients and covers surrounding villages. You try to get an appointment.

The Parish Council have their own neighbourhood plan which they are working on with the government.

The Parish Council's own survey proves there is no need for affordable housing.

There are no jobs.

We do not have the sewerage, or utilities for extra housing.

This is green belt land.

There are other brown field sites that are close to transport links that can be used instead of trying to build on every piece of green belt land.

We moved to this road because round the corner is the country. We hear sheep and chickens and love the peace and quiet as do our neighbours.

If this land was built on it would destroy the area.

The big question is when we were going to hear about this officially? We have heard nothing about this until yesterday when a neighbour put a note through our door. This is totally disgraceful.

Question 6:

Develop brown field sites and leave green areas green.

Question 12:

What happened to the sustainability consultation on North Brentwood?
