**Subject:** Strategic Consultation

Dear Sir/Madam

With regards to the above consultation, I wish to object to the process for the following reasons. There is no the green infrastructure study, you don't have a landscape capacity study, you haven't done a highway modelling, you haven't looked at the economic impact of Crossrail and you haven't done a review of the green belt. These reports are said to be forthcoming. How can you possibly ask for comments on this important issue if you do not have the full facts available to the public to make an informed decision?

These view are supported by Basildon Council, Cllr Moore, BBC, Essex County Council and Thurrock Council. There is no audit trail and the whole consultation process has not followed due process.

I look forward to your reply.

Regards

Alex Kelly (Mr)
